JAYA SURYA M

Full Stack Developer (React.js | Next.js | Node.js | TypeScript)

Coimbatore, Tamil Nadu | 6380489800 | suryajaya4899@gmail.com | linkedin.com/in/jayasurya4899 | github.com/surya489

SUMMARY

Full Stack Developer with 4.7 years of overall experience, including 3+ years building production web applications with React.js, Next.js, and TypeScript, backed by Node.js, Express, and MongoDB. Experienced in designing REST APIs, server-side Next.js API routes, authentication, payment gateway integration, real-time features with Socket.io, and analytics and conversion tracking. Comfortable owning features end to end, from responsive UI to API and database integration.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, React Context API
Backend: Node.js, Express.js, REST APIs, Next.js API Routes, Authentication, Socket.io
Database: MongoDB
Styling: Tailwind CSS, Bootstrap, SCSS
Tools and CMS: Git, GitHub, Resend, WordPress
Concepts: SSR, CSR, SEO, Component-Based Architecture, API Integration, Performance Tuning

EXPERIENCE

Full Stack / Frontend Developer – Sparkout Tech Solutions, Coimbatore (Feb 2025 – Mar 2026)

- Built a production-grade healthcare web application from scratch using Next.js (App Router), TypeScript, and Tailwind CSS.
- Developed custom Next.js API routes for server-side event and conversion tracking (Meta CAPI).
- Integrated Primer.io payment gateway for subscription and treatment plan purchases.
- Integrated Google Analytics, Mixpanel, and Meta Ads for user behaviour and conversion tracking.
- Built reusable UI components with state managed through React Context API; improved performance via optimized rendering and efficient API handling.
- Worked with cross-functional teams to ship scalable features.

Project: Blume Health (app.blumehealth.com)

Digital weight loss and healthcare platform connecting users with licensed medical professionals, prescription treatments, and coaching.

- Developed the complete frontend and server-side API layer using Next.js (App Router) and TypeScript.
- Built a dynamic multi-step screening and onboarding flow with React Context API.
- Implemented payment, analytics, and server-side conversion tracking end to end.

Junior Web Developer – Handbuiltapps, Trichy (Apr 2023 – Jul 2024)

- Built responsive web applications with React.js and Next.js; developed custom WordPress themes and plugins.
- Integrated third-party APIs and implemented AJAX-based dynamic data handling.
- Developed eCommerce platforms with payment gateway integration.
- Delivered production-ready applications in a team environment.

Projects: DofE (dofe.org) and Turtl.co

- DofE: built responsive pages and custom WordPress components for the Duke of Edinburgh's Award website; improved cross-browser compatibility and UI performance.
- Turtl.co: built responsive UI components, integrated third-party APIs for dynamic content, and maintained WordPress-based features.

Junior Frontend Developer – Zersys Technologies, Bangalore (Aug 2022 – Mar 2023)

- Built responsive UI with HTML, CSS, JavaScript, and React.js; customised WordPress sites using page builders.
- Improved cross-browser compatibility and UI performance.
- Project: Ragigudda Temple Website – fully responsive information site covering events, history, darshan timings, and visitor details.

Process Executive – Cognizant Technology Solutions, Coimbatore (Jan 2021 – May 2022)

- Processed claims, invoices, and data entry with high accuracy; analysed provider/payer data using MS Excel and SharePoint.
- Identified and resolved workflow issues to improve efficiency.

EDUCATION

Bachelor of Science in Information Technology – CMS College of Science and Commerce (2017 – 2020)
